## Ubuntu 14.04 Installation

# Note: Before follow the below steps please take back up of your documents, Music, picture and all the files

It's easy to install Ubuntu 14.04 from a DVD . Here's what you need to do:

Put the Ubuntu DVD into the DVD-drive

**1. Restart** your computer. You should see a welcome screen as shown in the below screen.

## Note: Select Install-Start the installer directly. (In the above screen mouse will not work)

If you don't get this menu, you have to set up BIOS first boot device as DVD drive, for this please follow below steps

• Restart your computer, computers require you to hold down or press a key to entering a BIOS. The most common way to enter the BIOS is to press the DELETE key and in few models it will be either of (F2,F10,F8 or F12).

Fast Boot	[Enabled]		
Boot List Option Secure Boot Load Legacy Option Rom Set Boot Priority 1st Boot Priority 2nd Boot Priority 3nd Boot Priority 4th Boot Priority 5th Boot Priority	[Legacy] [Disabled] [Enabled] [CD/DVD/CD-RW Drive] [Hard Drive] [USB Storage Device] [Diskette Drive] [Network]		

 In the above screen you have to select DVD drive as First boot devices then press F10 and save it.

Now you will see the 1<sup>st</sup> screen as explained in the first step.

### 2. Welcome screen :

Choose language (English).

Se Install		
Welcome
